Energy Innovation Center

1435 Bedford Avenue

Pittsburgh, PA 15219 Telephone: 412-894-9800

Email: info@eicpittsburgh.org

The Energy Innovation Center is a Pittsburgh based, not-for-profit organization with a mission to engage corporate and community leaders, align workforce development and education, develop and demonstrate technology, and incubate businesses, to support emerging clean and sustainable energy markets.

We have joined with key stakeholders to transform a vacant property in into a LEED Platinum Certified beacon for clean, efficient and sustainable energy solutions and technologies. Located in Pittsburgh's Lower Hill District this 200,000 square foot building functions as a 'living laboratory' for industry-informed education and training programs and a center that co-locates diverse tenants, including energy sector corporations, national energy research laboratories, political and community leaders, economic development organizations, and leading academic institutions.
